Projects

• Language Translator

A web application that translates text between multiple languages using an API, providing quick and accurate translations for global communication.

• Personal Portfolio

My personal portfolio that highlights skills, projects, and contact info, designed to showcase my frontend development profile.

• Gemstone Gallery

Built a responsive gemstone gallery website with attractive UI, gemstone categories, and mobile-friendly design.

• Arid GPA Calculator

AridGradePoint Mobile app which calculates GPA-CGPA

• Tourism Landing Page

Visually appealing landing page designed for a tourism website, showcasing interactive destination sections & user-friendly navigation.

• Music Player

An interactive web music player that supports play, pause, next, and previous controls
